Who we are

A European Industrial Group Specialized in Industrial Cleaning Technologies

IBERISA GROUP is a Spanish industrial group with more than 30 years of experience in engineering, manufacturing and international commercialization of industrial machinery and industrial cleaning technologies.

Through its own manufacturing brand ,

With sales in more than 40 countries, the group develops customized industrial solutions for railway, automotive, naval, energy and heavy industrial applications worldwide.

Distribution and integration of:

- Workshop equipment
- Surface treatment systems
- Industrial maintenance solutions

Own Manufacturing Brand

Design and manufacturing of:

- Industrial washing machines
- Ultrasonic cleaning systems
- Automatic washing tunnels
- Bogie washing systems
- Heavy-duty cleaning cabins
- Customized industrial projects

Professional DPF/FAP cleaning systems for:

- Passenger cars
- Trucks
- Industrial fleets

Engineering & Manufacturing

Proprietary Engineering & European Manufacturing

IBERISA GROUP develops industrial cleaning technologies combining engineering, manufacturing and process automation for demanding industrial applications worldwide.

With warehouse and manufacturing facilities located in Spain, the group integrates engineering, production, assembly and international logistics operations under European manufacturing standards.

Our activity integrates:

- Mechanical engineering
- Process engineering
- PLC automation
- Stainless steel manufacturing
- Ultrasonic technologies
- Heavy-duty industrial solutions
- FAT / SAT and technical support

Manufacturing Capabilities

- ✓ Production capacity of more than 500 machines annually
- ✓ Custom-made industrial projects
- ✓ International export operations
- ✓ European manufacturing standards
- ✓ Specialized solutions for railway, automotive, naval and heavy industry applications

Flexible engineering and manufacturing adapted to each customer and application worldwide.

Industrial sectors

Solutions for multiple Industrial Applications

IBERISA GROUP supplies industrial equipment and technologies for maintenance, manufacturing and heavy-duty industrial environments.

Railway

Depot equipment, bogie washing systems and maintenance solutions.

Automotive

Industrial cleaning systems and workshop technologies.

Naval & Defense

Heavy-duty cleaning applications and industrial maintenance equipment.

Energy & Heavy Industry

Industrial process solutions for demanding environments.

Industrial Maintenance

Workshop equipment, surface treatment and cleaning technologies.

Multi-Sector Experience

Experience working with railway, industrial, naval and heavy industry customers worldwide.

Main industrial cleaning technologies

Ultrasonic Cleaning Systems

Multi-stage ultrasonic solutions for precision industrial cleaning applications.

Industrial Washing Machines

Spray washing systems for maintenance, manufacturing and heavy-duty industrial environments.

Automatic Washing Tunnels

Continuous cleaning systems designed for high production and industrial process applications.

Customized Industrial Projects

Special engineering solutions adapted to customer processes, dimensions and industrial requirements.

Industrial cleaning solutions for every application

Manual Washing Cabinets

Brush washing & high-pressure cleaning solutions.

Customized Industrial Projects

Tailor-made engineering for industrial applications.

Rotary Spray Washers

Single bath, multi-bath & multi-stage cleaning systems.

Wet Blasting Systems

Surface finishing & controlled abrasive cleaning processes.

Ultrasonic Cleaning Systems

Standard, up-down & stripping ultrasonic technologies.

Industrial Detergents & Chemicals

Professional detergents for industrial cleaning processes.

Custom engineering projects

Tailor-Made Industrial Solutions

IBERISA GROUP develops customized industrial equipment adapted to customer requirements, industrial processes and specific applications.

Project capabilities

- 3D mechanical design
- Process development
- PLC automation
- Heavy-duty industrial systems
- Stainless steel manufacturing
- Integration into existing production lines
- FAT / SAT and commissioning support

WE ADAPT MACHINES TO YOUR PROCESS

Quality & Certifications

Commitment to Quality, Reliability and Environmental Responsibility

IBERISA GROUP operates under certified quality and environmental management systems to ensure reliability, process control and continuous improvement across all industrial operations.

Quality Management System

ISO 9001:2015

Certified processes focused on quality control, reliability and continuous improvement for industrial machinery and manufacturing operations.

Environmental Management System

ISO 14001:2015

Commitment to sustainable industrial practices, environmental responsibility and efficient resource management.

European Industrial Standards

CE Compliance

Industrial equipment designed and manufactured according to European safety, quality and compliance requirements.

International presence

Global Industrial Solutions

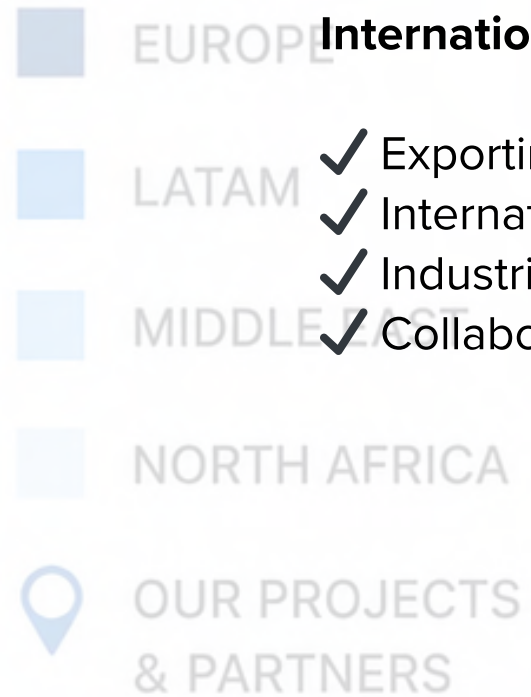

IBERISA GROUP supplies industrial machinery and technologies to customers worldwide through direct export operations, distributors and industrial partners.

With international experience across multiple sectors, the group develops solutions adapted to demanding industrial and maintenance environments.
Main Markets

- Europe
- LATAM
- Middle East
- North Africa
- Eastern Europe

International Operations

- ✓ Exporting to more than 40 countries
- ✓ International logistics and technical support
- ✓ Industrial projects worldwide
- ✓ Collaboration with distributors and industrial partners

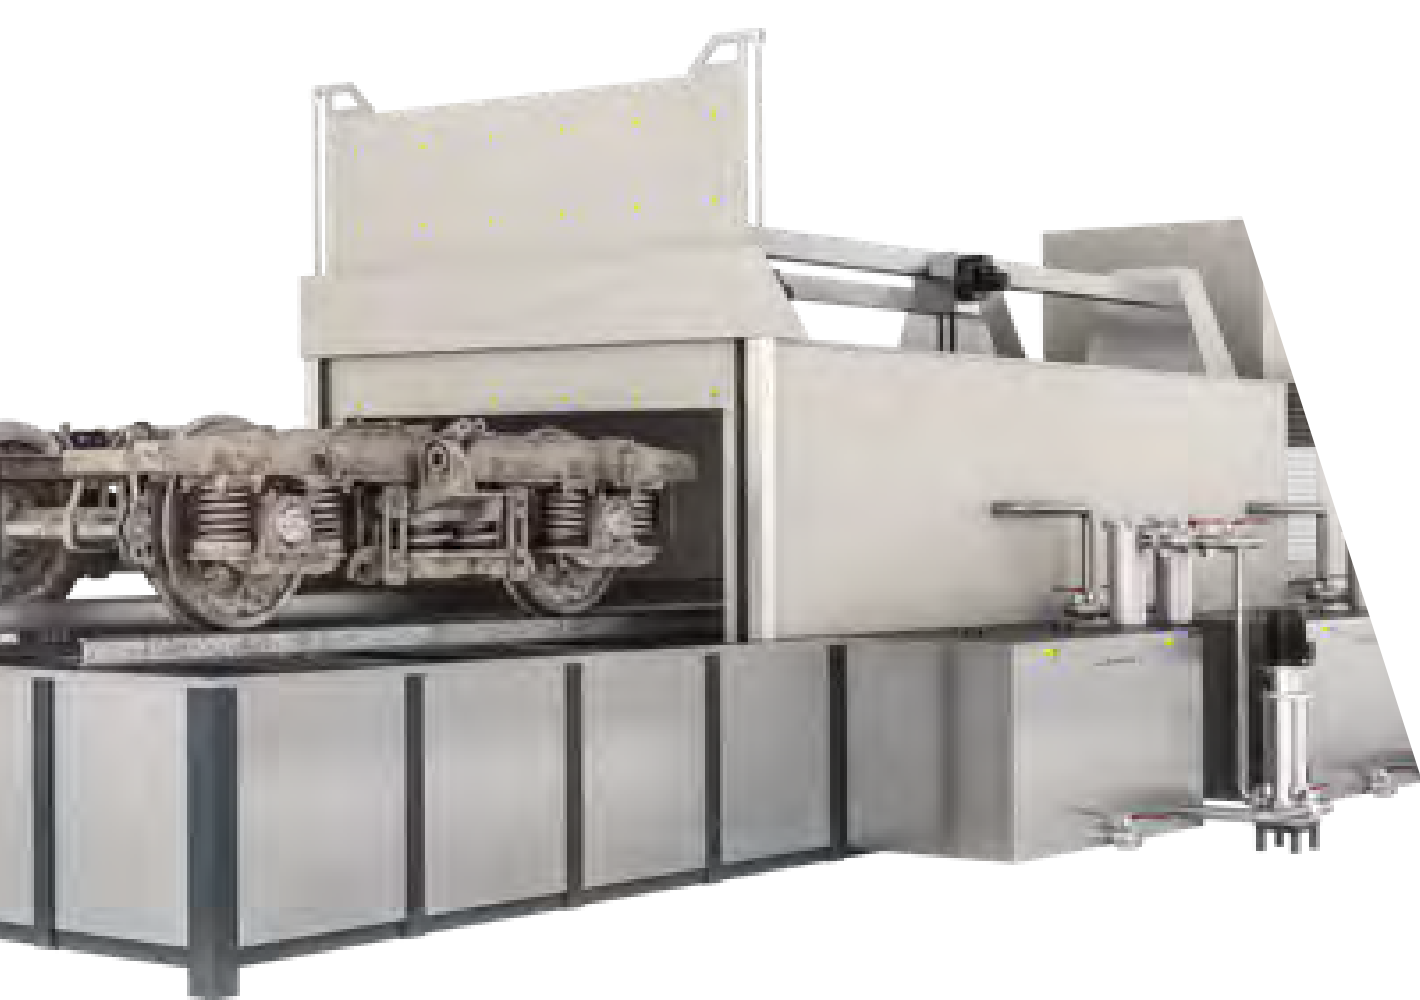

Reference & Key Customers

IBERISA GROUP and **IBERKLEEN** have collaborated with international companies and industrial groups across railway, automotive, naval, energy and heavy industry sectors.

Our solutions are used in demanding industrial and maintenance environments requiring reliability, durability and process performance.

Trusted by industrial companies worldwide

WHY IBERISA GROUP

Reliable industrial technologies for demanding industrial applications worldwide.

Proprietary Engineering

Customized industrial solutions adapted to customer requirements.

International Experience

Projects and industrial solutions supplied in more than 40 countries.

Long-Term Partnership

Technical support and industrial collaboration focused on reliability and performance.

European manufacturing

Manufactured in Europe with industrial quality standards.

Long-term spare parts support

Reliable spare parts availability for long-term operation.

Customized solutions

Engineering flexibility for unique industrial processes.

ENGINEERED FOR INDUSTRIAL PERFORMANCE

European Manufacturing • Industrial Reliability • Worldwide Support

At **IBERISA GROUP**, we design and manufacture industrial cleaning technologies for workshops, manufacturing and heavy industry worldwide.

Customized engineering, European manufacturing and long-term industrial support.
